PROJECTS

Personal Portfolio Website

[\[GitHub\]](#)

Developed a fully responsive personal portfolio using HTML, CSS, and JavaScript to showcase projects, skills, and contact details. Implemented a clean and modern UI with smooth navigation and interactive elements, and deployed it using GitHub Pages for public access.

To-Do List

[\[GitHub\]](#)

Built an interactive To-Do List app using HTML, CSS, and JavaScript with features like adding, completing, and deleting tasks. Integrated localStorage to maintain task data across sessions and implemented dynamic DOM manipulation for real-time updates.

Weather Checker

[\[GitHub\]](#)

Designed a responsive weather application using HTML, CSS, JavaScript, and the OpenWeatherMap API. Enabled users to search any city and view real-time weather information including temperature, humidity, and conditions. Focused on clean UI, error handling, and API integration.
